[7 winter reasons to stay at the Kristall]

You will love your holiday with us,

- ... because our small, luxury 4-star hotel is in a wonderful location: in the sunniest spot in Pertisau, and only five minutes on foot from the Achensee.
- ... because spa relaxation will take on a new dimension from winter 2012: you can unwind in our 1,800 m² spa and refresh your body and soul with a wide range of exclusive beauty treatments.
- ... because since 2012, the Kristall is the first and only "Wanderhotel" at the Achensee – a certified walking and hiking hotel with a fantastic activity programme all-year round.
- ... because the Karwendel Alpine Park is right in front of the doorstep: 150 km of perfectly prepared cross-country skiing tracks, 45 km of winter walking paths and beautiful runs down into the valley for downhill skiers!
- ... because you can relax in comfortable and elegant rooms & suites – also under a romantic starry sky if you wish.
- ... because our chefs spare no effort in preparing outstanding culinary delights for you and will naturally also take into account special dietary requirements.
- ... and because our renowned warm welcome remains unchanged in spite of all the new exciting developments!
